  - **Databases:** [MySQL, MongoDB, MS SQL]
  - **Tools:** [Git, GitHub, Tortoise SVN, Guidewire Studio, IntelliJ IDEA, Eclipse, NetBeans, VS Code]
  - **Other:** [RESTful APIs]
- 

## PROFESSIONAL EXPERIENCE

**Software Developer** – Newdream Data Systems

[Trichy] | [March 2023 – Present]

- Started my professional journey as a Guidewire Developer, specializing in “PolicyCenter” for one year. During this time, I was responsible for designing insurance forms and templates using Guidewire technologies. I worked on various projects involving PCF, forms, data mapping, XML, and DiffTree projects.
  - Developed and maintained automation scripts for internal projects using Selenium over a span of six months, greatly enhancing the efficiency and reliability of business processes.
  - Currently serving as a Software Developer in the Internal Conversion Product Team, where I apply problem-solving skills and in-depth analysis to develop effective solutions for time-consuming challenges. I proficiently utilize “Java”, “Spring Boot”, and “MySQL” to create API solutions.
  - Developed and integrated “RESTful APIs”
-
